### DETAILED ACTION

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 and 3-4 are rejected under 35 U.S.C. 102(b) as being anticipated by Oka et al(US6270418).

See Figure 2 of Oka et al(US6270418) with first joint 2, sleeve 12, two branches 6, bridge 9 associated with surrounding joint at 8. The elastic joint of Oka et al is readable as the antivibration link claimed as the limitations are broadly recited with the bifurcated branches.

3. Claims 2 and 5-13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. Applicant's arguments with respect to claims 1 and 3-4 have been considered but are moot in view of the new ground(s) of rejection.

5. Note applicant's EP1413780A1 and JP 2004-144303 made of record.

6. Ciolczyk et al and EP995928A2 disclose anti-vibration links.
